

Trading Update – Casino Canberra – February 2017

10 March 2017

The Board of Aquis Entertainment Limited (AQS) is pleased to announce that business activity levels at the Company's Casino Canberra property continue to show year on year growth, following refurbishment of the facility and as the roll out of targeted Marketing programs continue.

Actual Gross Gaming Revenue (GGR) for February 2017 reached \$1,937,027, 11% lower than January 2017 actual GGR (\$2,166,835) (predominantly due to less trading days in the month) and 10% higher than February 2016 actual GGR (\$1,763,750).

Gaming department expenses for the month remained in line with previous periods.
